Numbers are drawn using a random number generator and recorded on paper.

For a winner to claim their prize the ticket must be presented and the number checked. The winning number is marked off as claimed once the prize has been collected.

The winner is given a numbered card for the end of month bonus cash prize and then asked to choose their prize.

Member Reward Points Cards

The allocation of the reward points won are added to the Members point total at the end of the raffle by the raffle host or duty manager using the reward points machine. The Member's number and dollar value of points won is also recorded on paper. The Club Member's points will be verified manually and if the points machine fails to function correctly any missing points will be added at that time

The Five Card Draw

At Draw 15 and Draw 30, the individual with the winning number will be asked to come forward. The raffle host will shuffle the short deck of cards provided and place five cards face-down in front of the winner. The winner must choose one card and that card has a cash value.
