

Mittagong RSL Club Limited Thursday Raffle and Jackpot Terms & Conditions of Entry

Updated April 2023

The Thursday Raffle has 45 regular prizes plus one cash prize, relating to the jackpot.

Numbers are drawn using a random number generator and recorded on paper.

For a winner to claim their prize the ticket must be presented and the number checked. The winning number is marked off as claimed once the prize has been collected.

Individuals have 4 minutes to present their ticket with the winning number and claim a prize. After that time a new number may be drawn, to claim the prize instead.

Jackpot Prize Schedule and Prize Draw Mechanics:

Starting from \$250, the jackpot will increase in \$250 increments each week it is not won, to a maximum level of \$5,000.

To be eligible to win the jackpot, a patron must satisfy the following criteria:

- Have purchased tickets into the raffle on the exact night the jackpot draw is taking place
- Have won a prize in the raffle conducted on the exact night the jackpot draw is taking place
- Satisfy the conditions of entry as outlined below

The jackpot draw will be carried out at the conclusion of the draw for the regular prizes on each night that a Thursday Raffle is conducted. The draw will be conducted and decided using the following method:

- The compere of the raffle will use the same start and finish numbers in the Random Number Generator (RNG) as those used to conduct the raffle that night.
- The compere will read aloud the number that is generated by the RNG and the patron with that number on their raffle ticket has 4 minutes to present themselves to the draw area.
- If the jackpot number drawn falls in the same block of 60 numbers as the patrons winning number from the regular draw, they win the jackpot.
- If the jackpot number drawn is not within the same block of 60 numbers as the patrons winning number from the regular draw, they win \$50.
- If a ticket holder fails to present themselves within 4 minutes, a second number is to be drawn. However, the jackpot is no longer able to be claimed. If the person with

the second number drawn on their ticket does present themselves within 4 minutes only \$50 may be claimed. If no-one presents, there are no more draws.

Primary and Secondary Jackpots

If the jackpot is not won, it will increase by \$250 each week, to a maximum total of \$5,000. Once the primary jackpot has reached its maximum level, a secondary jackpot will start to accrue. For each week that the primary jackpot of \$5,000 is not won, the secondary jackpot will increase by \$250 each week. If at any stage the primary jackpot is won, the secondary jackpot will become available on the following Thursday raffle night at the level that it has accrued to at that time the primary jackpot was won.

If the secondary jackpot reaches a total of \$5,000, the primary jackpot will be awarded in five (5) lots of \$1,000 using the following method:

- At the conclusion of the jackpot draw on the designated raffle night, using the procedure outlined above, five (5) lots of \$1,000 will be distributed to patrons.
- The compere of the raffle will again use the same start and finish numbers in the Random Number Generator (RNG) as those used to conduct the raffle that night.
- The compere will read aloud the number that is generated by the RNG and the patron with that number on their raffle ticket has 4 minutes to present themselves to the draw area.
- The patron presenting to the prize draw area with the correct number on their ticket will win \$1,000
- This process is repeated another four (4) times, or until all \$1,000 prize amounts have been allocated.

The Board of Directors may, at their discretion, choose to distribute any jackpot that has accrued to its maximum value of \$5,000 using the aforementioned process by providing a minimum of seven (7) days' notice.

Standard Conditions of Entry:
